## 2024 SCHOLARSHIP WINNERS

### **Nathan Jost - Bayside High School - \$1,000**

Nathan started playing Jazz piano in 8th grade because his band director forced him to fill an empty spot. He didn't have any experience with piano before that, so he did his best to learn how to play for the Jazz band. Nathan fell in love with Jazz music during COVID-19 when the band director gave them assignments to play certain parts of them. He had to listen to the recordings over and over to get it right. This caused his YouTube recommended videos to suggest music such as Art Blakey's *Moanin'* and Bill Evan's *My Funny Valentine*.

He found mentors to help him understand how to play Jazz piano in high school. And he also found Jazz pianist Emmet Cohen, who inspired him to want a career in performing Jazz around the world and meet new musicians. One of Emmet Cohen's mentors was taught by the Jazz piano professor at Florida State University, William Peterson, and Nathan intends to study under him.

During his sophomore year in high school, Nathan made it into the Brevard All-County Jazz Band directed by Leon Anderson from FSU. There, he met plenty of other musicians from other schools like Bridgette Setters, Jon Pinela (a 2023 Space Coast Jazz Scholarship winner), and Kayla Crider, who invited him to play with their student-run big band, The Brevard Youth Big Band. He also met a UF undergraduate, Alex Kaufman (one of our 2022 scholarship winners) and Nathan was invited to play in his trio.

During Nathan's Junior year, his High School Director awarded him the *Louis Armstrong Jazz Award* for finding ways to play with the community and creating opportunities for others. Nathan also performed with the Space Coast Big Band and successfully made it into the Brevard All-County Jazz Band.

Nathan begins his summer term at Florida State University and will major in Jazz Performance. As he enters this next chapter with Bill Peterson as his mentor, he plans to continue playing Jazz music wherever he goes.

## **Caiden Collins - Melbourne High School - \$1,000**

Caiden has been fascinated with art and self-expression since he was young. He has considered career paths in many interests, including neuroscience and creative writing. But, no other form of art excites him like improvisation in jazz. His goal is to become a modern working musician and seek an education that aligns with his aspiration to become a contributor to the jazz communities that he admires.

He has auditioned for several high-level college jazz programs such as the University of Miami, Frost School of Music and Berklee College of Music.

Many teachers and instructors in Brevard County have influenced his interest in music and jazz throughout elementary, middle and high school, including private lessons.

Caiden's appreciation for jazz grew even more when he was researching music on YouTube during the COVID lockdown in 2020. He was first introduced to online content about jazz made by Berklee alumni such as Adam Neely and Shawn Crowder. He also enjoyed listening to Emmet Cohen and artists performing at "Live from Emmet's Place" (NYC). Since

then, he has been inspired by many iconic performers but John Coltrane in the 1960s is one of his top inspirations.

In his musical career, he has played in numerous ensembles. It started when he first began taking private lessons from Andrew Cleaver in the seventh grade at DeLaura Middle School. Thanks to those lessons, he was able to get second tenor in the all county jazz band his junior year and then first tenor this year. He also made the all county concert band during his 8th grade and junior year on tenor sax, and then he also got second chair alto sax this year. He was recommended by his band directors and was selected to travel to Tallahassee to take part in the Florida State University Tri-State Band Festival, where he also got first chair tenor sax and even had a classical tenor solo and earned a superior on a grade 5 soprano sax solo his freshmen year, and got an excellent at states. The next year he was also a part of a saxophone quartet where they earned a superior in both district and at states on a grade 6 as well. Outside of an academic setting, I has also been able to play with some amazing players. He occasionally sit in with The Space Coast Big Band, participated in the Brevard Symphony Youth

### **Ethan Broome – Titusville Hight School – \$1,000**

Ethan has been accepted into the Florida State University college of music as a Jazz major and receive a dual degree in Biology, with the intention of attending a medical school after college graduation. These degree paths have been described to him as two of the most intensive paths that a student could choose, with the heavy course load and travel that comes with a music degree and the difficult and rigorous coursework that comes with a biology degree.

During his freshman year of high school, he made his school's jazz band, being the only freshman in a band of seniors. The lead players in the band had their own jazz combo which they asked him to perform with. They gigged in restaurants and for community events around our city and neighboring cities.

In the summer after his sophomore year, following the lift of COVID-19 guidelines, he attended the Florida State University jazz camp and made first chair piano in their top band and combo, and did the same the following summer. The band was led by Leon Anderson, who was the drummer for Ellis and Wynton Marsalis before he began teaching, and trumpeter Scotty Barnhart, who is the director of the Count Basie Orchestra. During the first summer that he attended the camp, he planned to study under a jazz pianist at the University of Central Florida, but COVID-19 prevented this and he instead studied with a jazz guitarist at UCF who lives in his city. This year, I have been accepted into the Florida State University College of Music as a Jazz Major, competed at State Jazz MPA with my school's jazz band, and has been asked to join a jazz combo that takes gigs around Central Brevard.
